

CT Corporation

Service of Process Solutions, Make the Most of Your Time

When speed is paramount

FastTrack SOP offers delivery in 2 hours or less.* This newly enhanced Service of Process solution is **all about speed**, while including all the essential data and compatibility with technology integration tools. Quicker turnaround times can help legal teams better manage workflows and workloads to get a faster start on processing times. Faster delivery also means greater efficiency when dealing with time-sensitive matters such as wage garnishments and subpoenas.

End-to-end functionality

CT's FastTrack offering is a game changer, backed by our industry-leading depth of service and cutting-edge features. With CT Service of Process solutions, you receive comprehensive SOP management tools that include:

- Highly **detailed lawsuit type** and sub-type categorizations for your processing, workflow and routing needs
- SOP summary sheets that include a **single, consolidated view of related case history**
- Easy-to-use and customizable **online portal** to view, search, and store SOP
- Activity tracking, reporting and **reminders** to take action on incoming matter
- SOP management **trend analyses** and reporting
- Secure **sharing and collaboration** with team members and your trusted third parties
- Quick **API integration** into existing systems (such as matter management, claims and payroll)
- **Support** for SOP direct to your various company locations

CT's service of process (SOP) solutions allow you to focus on what matters. Avoid costly and time-consuming default judgments. Integrate directly into your processes, workflows and systems. Count on CT's solutions for reliable procedures to deal with notice of litigation and SOP in a timely and flexible manner.
