LWW Health Library

US & Canada Version

Online Portal to Clinical and Educational Content,
Plus Rich Multimedia Ancillaries for Teaching,
Learning, and Practice

LWW Health Library provides a singular access point to clinical and educational content, as well as rich multimedia ancillaries for teaching, learning, and practice. In addition to medical schools, health science programs, and hospitals, these resources are a must- have for related educational, residency, and fellowship programs—ensuring you have the resources you need to develop curricula that effectively support the foundational learning and clinical practice needs of your students, residents, and trainees.

Why LWW Health Library?

- **Highly-rated references:** Trusted, textbooks, review books, atlases, and other books from Lippincott®, making it a one-stop, digital portal for authoritative content paired with industry-leading functionality
- **Regular content updates:** As new book editions are published, ancillary content is acquired, and/or as authors supply clinical, practice-changing updates to their content
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give students, trainees, and new clinicians control over their progress and motivation to learn
- **Advanced semantic search:** Guides users to results displayed by title, chapter, topic, and/or type of resource
- **Responsive design:** Provides ability to easily browse content on your computer, tablet, or smartphone
- **Sharing:** Much content, including technical videos, can be shared with colleagues and classmates
- **Multimedia ancillary content:** Access to videos, images, Q&A, and more
- **Powerful quizzing engine:** Offers students and residents a chance to personalize their learning

LWW Health Library is far more than electronic texts. It provides highly intuitive, interactive access and simple search capabilities to essential texts, as well as rich multimedia ancillary content comprised of procedural videos, images, real-life case studies, and quiz banks specifically tailored for the specialty.

Using LWW Health Library:

- A librarian purchases LWW Health Library to support faculty's needs in curriculum development, providing the full breadth of content in medical education and specialty subject areas in a user-friendly platform with invaluable multimedia ancillaries.
- Students, residents, trainees, and departments can access required readings and digital assets to prepare for class, rotations, or procedures — easily jumping to specific chapters, with the ability to print and/or save that chapter to a PDF to read offline later.
- Instructors can use the LWW Health Library tools, contents, and digital assets to create customized classroom materials and course packs — with the ability to save images, videos, chapters, and searches as well as disseminate to students.
- Clinical staff can use assessments and treatment information to plan care for patients.
