

LWW Health Libraries for Medical Education

Why LWW Health Library?

Designed to support foundational learning and clinical practice, LWW Health Libraries deliver trusted health science education and clinical content to residents, fellows, program directors, faculty, and clinicians through a single portal — providing interactive online access to essential textbooks, multimedia & imagery, real-life case studies, and quizzes.

Covering Anatomical Sciences, Basic Sciences, Osteopathic Medicine, and Board Review prep, these **Health Libraries** have been developed to support instructors and a variety of learner types—from first-year medical students to residents to practitioners who need a refresh. Content can be incorporated into a curriculum or used in self-study, and is ideal for acquiring fundamental concepts and principles, applying knowledge in clinical settings, and preparing for boards and other exams.

Eight eBook/Multimedia Content Collections for Coursework, Exams, and Clinical Training and Practice

LWW Health Library Medical Education Collections include:

- Field-leading textbooks in areas and disciplines—such as anatomy, physiology, and pathology—that are fundamental to medical school or residency training
- Videos that depict mechanisms, interactions, techniques, and procedures as well as key topics
- Thousands of self-assessment questions that help students gauge their knowledge and prepare for USMLE, PANCE/PANRE, and shelf exams
- Case studies that present real-world scenarios and help learners apply clinical knowledge in practice
- Content updated regularly!

Key Features of each LWW Health Library:

A single portal to foundational and basic sciences resources, as well as rich multimedia tools for teaching, learning, and practice.

- **Account personalization:** Save content to a 'My Health Library', access Health Library from any computer, and set up email alerts for when new content is added.
- **Quizzing:** Create custom quizzes organized by topic, keep track of responses, and link to relevant content to help with remediation.
- **Ovid MEDLINE® widget:** Connects students to valuable primary literature with an exclusive search widget, which returns targeted results and article previews.
- **Advanced semantic search:** View results displayed by title, chapter, topic, and/or type of resource.
- **Responsive Design:** Browse content on your computer, tablet or smartphone with ease.
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give residents control over their progress and motivation to learn.
- **Sharing:** Much content, including technical videos, can be shared with colleagues and classmates
- **Print/save a chapter:** Download chapters via pdf, for easy access to content when offline — for note-taking or to print PDF.
- **Multimedia ancillary content:** Access videos, images, Q & A, patient education handouts, and more.

LWW Health Libraries: Premium Basic Sciences Collection

Authoritative ebooks for the LWW Health Library Medical Collections:

- LWW Health Library: Anatomical Sciences (7 ebooks) focuses on fundamental concepts in human anatomy to support success in coursework, residency training, and professional practice.
- LWW Health Library: Integrated Basic Sciences (28 ebooks) – combines the Anatomical Sciences and Basic Sciences collections.
- LWW Health Library: Premium Basic Sciences (45 ebooks) – combines the Integrated Basic Sciences collection, the Lippincott Illustrated Review book series, the gold-standard Bates' Guide to Physical Examination & History Taking, and more.
- LWW Health Library: Lippincott Illustrated Review (8 ebooks) - highly visual books bring fundamental medical principles to life and are designed for fast absorption of complex material.
- LWW Health Library: Osteopathic Medicine (7 ebooks) – help students and practitioners master manipulative techniques and better understand the history and philosophy of osteopathic practice.
- LWW Health Library: Clerkship/Clinical Rotations (over 40 ebooks) – addresses each of the core clinical rotations—from Internal Medicine to OB/GYN. Ideal for seeing principles in action with patients and prepping for board exams.
- LWW Health Library: Board Review Series (11 ebooks) – covers material in the primary basic sciences—such as gross anatomy, embryology, neuroscience, and more—that are addressed on the USMLE Step 1 exam.
- LWW Health Library: Basic Sciences (21 ebooks) – covers common curriculum for the first two years of graduate-level medical and related programs, helping students grasp fundamental concepts to better deliver patient outcomes.

Additional Features:

- **Regular content updates** ensure users receive the most up-to-date reference material
- **Clean, user-friendly display** of book pages, including tables, images, and linked references
- **Multiple chapter views** including full chapter, figures only, or tables only
- **Links to related content** in other chapters and assets in the collection for quick access, driven by powerful semantic tagging
- **Subject lists are displayed** on textbook browse page for easy navigation, allowing users to filter by subject in search results
- **Images downloadable directly** into a PPT template

Who uses the LWW Health Library Exercise Science collection?

- **Students!** Access required readings and digital assets for class—easily navigate between materials and share with classmates and colleagues.
- **Instructors!** Create customized classroom materials and course packs and easily disseminate content to students.
- **Practitioners!** Use assessments and videos to prepare for working with patients and clients.
